I don't know how I ever lived with out XM Radio. I listen to Fox News and the the weather Channel while I'm on the road . I can't get up to the minute up dates with regular radio. Especially Tornado comming out west where I stay all the time . I run California to Virginia All the time I need the weather channel for all kinds of weather when I'm on the road. The weather Channel really helps me out all year long . I'm a truck driver . I will be really mad If you mess with XM radio programming. You all screwed up my Satelite TV where I can't get distant channels , Don't screw this up for me. Leave XM radio alone, Leave it just like it is.
